The Common Council gave a hearing on Monday evening at Manor Hall on the new charter that has passed the Legislature. Mayor Peene presided. Two parts of the charter met with some opposition -that referring to the manner of securing a jury for cases in the City Court and the Court of Special Sessions and the provision increasing the number of wards from five to seven. It was the general opinion that while there might be some objectionable features in the measure it was, as a whole, a great improvement over the present char-

#### MOUNT VERNON.

The Republican voters made an opening of the spring campaign on Monday night, which should exthe admiration of the c'tizens as a whole, and which likely will attract the support of a large number of Democrats who have good reason to be dis-gusted with their party leaders. The primaries were not only attended by larger numbers than usual, but there were enthusiasm and harmony in all of the wards excepting the Fifth. Here there were two candidates in the field for Alderman, and the friends of one declined to yield to those of the other. Will-iam Archer, of the firm of Dawson & Archer, who was acknowledged to be one of the best Aldermen was supported by a very large number of the best citizens of his ward. So, too, was Dr. T. A. Fletcher, who was defeated for Alderman by a very small vote last year. The conduct of the pri-mary was criticised by some as unfair; especially mary was criticised by some as unitair, especially the ruling that no one should be permitted to vote unless he would swear that he had previously supported the Republican ticket from top to bottom. Some of Mr. Archer's friends frankly admitted that while they had supported the National and State Republican tickets, they had voted against one of the local Republican candidates for good reason. When the vote was canvassed, it was found that in the total of 129, Dr. Fletcher had eight majority, and he was declared the nominee. This is the largest vote ever cast at a primary in the Fifth Ward. Later some of Mr. Archer's friends urged him to run on an independent ticket, to which he replied he would not consider such a proposition; that he would do nothing to Jeoparilize the Republican ticket, but would submit to the decision of the primary, regardless of the unfairness of some of the rulings of the chairman. When asked yesterday morning if he had changet his mind, he declared that he was most emphatically opposed to doing anything to endanger the opportunity for a Republican victory in the Fifth Ward, or any other ward. The nominees in the other wards were: First Ward, Walter C. Reid; Second Ward, Herbert E. Walter; Third Ward, George R. Conklin; Fourth Ward, Henry Qualman. Delegates were also elected to the city convention, to be held to-night, when nominations will be made for supervisor and assessor. the ruling that no one should be permitted to vote

# ROCKLAND COUNTY.

# A. C. HAYNES'S RETIREMENT.

IT CAUSES MUCH TALK IN LIFE INSURANCE CIRCLES.

The news of the retirement of Archibald C. Haynes from the Equitable Life Assurance Society, as told in The Tribune yesterday, caused much comment in insurance circles, where Haynes was widely and favorably known. The officers of the society remained reticent, except to repeat that Mr. Hayne had voluntarily retired from the company, and that they regretted his leaving them. Nothing could be learned as to where Mr. Haynes was yesterday. At his home in the Florence apartment-house, at No. 105 East Eighteenth-st., Mrs. Haynes said that she did not know where her husband was. She was also ignorant of when he intended to return. The only word that he left was that he was going way to combine business and pleasure, and while looking after some agencies at the same time take

a good rest in the country.

A well-known insurance man, in speaking of Mr. Haynes's retirement from the company, said:
"Haynes was a marvellously successful man. He was a man of great versatility. He made his reputation in handling agents. He would employ a man as an agent; lastruct him how to go to work, and then, if the fellow did not get along, Haynes would look him up and personally help him for a few days until he got a start. He had more first premiums, I suppose, than any other man in the business. His revenue from these was large at first, and then his commission of successive payments made a steady income. Even if he had quit the society owing it almost a million, still it would be safe, for the incoming commissions on successive payments would cover them."

It was intimated yesterday that Mr. Haynes had taken his business troubles quite to heart, and that his health was badly impaired. Haynes's retirement from the company, said:

Mr. Whitehead then said: "We want to bring men into this society who are interested in its object. It does not matter whether they live in the city or not. I think some of the commanders of the Navy should be asked to

England.

It was decided to refer the matter to the Committee on Election and Bylaws.

J. Seaver Page moved that the committee be instructed to recommend some plan to raise funds for the society. That was also adopted.

Those present were Madison Grant, J. La Farge, Isaac W. McClay, Hugh N. Camp, Edward L. Owen, William Van Valkenburgh, Frederick De Val, Cornelius Van Cott and Robert L. Niles.

### AFFAIRS IN BROOKLYN.

DISCUSSING THE FLYNN FRANCHISES.

TALKS WITH EX-MAYOR BOODY, MAYOR SCHIEREN AND OTHERS ON JUDGE SMITH'S DECISION. Judge Walter Lloyd Smith's decision annulling the Flynn road franchises was the talk of the day in Brooklyn yesterday. When ex-Mayor David A. Boody was seen, he said:

"I have nothing to reproach myself with in the matter, and I will say that I consider the granting of that franchise under the conditions imposed the ost important act of my administration as Mayor of Brooklyn. I should like to prepare an extended statement of my relations to the case, especially as it is of so much general interest, and has been subject to so much misrepresentation."

P. H. Flynn, president of the Nassau Electric and the Kings County Electric Railroads, said: "We shall appeal from the decision of Judge Smith, of course. It was entirely unexpected, and as yet searcely know where we stand. The judgment of the court has not been filed, and until it is we will not know how this decision will affect us. Mr. will not know how this decision will affect us. Mr.
Grout is at work to get the judgment flied as soon
as possible, and it will be signed, I believe, by
Judge Smith at Elmira to-morrow, and flied the
next day. It may be that we will be able to file
bonds and proceed with the work of the road, but,
as I say, until the judgment is made known we cannot tell. We have expended very close to \$2.060.00 up
to the present time in the building and the equipping
of the railroad, and, of course, that amount of
money will not be given up if there is any possible
way of keeping it."

Mayor Schleren said the decision was just and
proper, and a victory for honesty. "This city has
been wronged." said he. "It has received absolutely nothing for valuable franchises granted by
a former Board of Aldermen. The present Board of
Aldermen granted a permit to use only two blocks,
and got \$5.000 for it, besides the repairing of the
street. If the same thing had formerly been done
throughout the city, Brooklyn would have received
thousands of dollars where she has obtained nothing."

Alfred T. White, City Works Compaisioner, said.

Alfred T. White, City Works Commissioner, said that all the company's permits had been revoked. It is likely that the appeal by the Flynn people will be heard at the next General Term, which convenes in Brooklyn next Monday.

"I don't know where this report gets its vitality. It seems to be hydra-headed, and I have been unable to kill it by denials. It is arrant nonsense. I see the report says that for a long time the railroad has been destrous of obtaining the church property, upon which it proposes to build an addition to the Grand Central Station. That is wrong. We could hardly use that property for station purposes if it were handed over to us.

"I will not deny," added Mr. Depew, "that we are somewhat crowded for space at the station. My idea of an outlet for this cramped condition of affairs is a union station, and I think the change will be worked out some day, but just now we are doing nothing."

CUTGOING STEAMERS.

We're selling more low-price clothes than a year ago. Let's see what that

Cloth cheaper? people more econ-emical because of two years' practice? low-price suits better than a year ago?

Or is it a mistake ! It is mostly a mistake. There's more money's worth to the dollar in our suits above \$20 than under \$20. Better making is expected of a twentydollar suit than of a fifteen-dollar suit, and better making is put into it.

Average man, our best for you is \$20 or more.

Your money back if you want it.

# FLINT'S FINE FURNITURE NO OLD FAMILY

can trace its descent from such illustrious and ancient ancestors as those furniture designs Mayor Strong said yesterday that he had heard whose forefathers were the highest art known at the Courts of Caesar or Cleopatra, of L Quinze or the Emperor Napoleon, of Queen Elizabeth or Charles I.

This art was famous also in Colonial days and accepted by George Washington, John Quincy Adams, and Thomas Jefferson. Is it odd, then, that in the first homes of America to-day the place of honor is given to the historical furniture called "Empire," "Louis Quinze," and "Colonial," and which in every accuracy of ancestral art is found at Flint's Fine Furniture establishment. But the prices are often but a quarter of what was then paid if now you
